1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. In the Claims:

This application is in condition for allowance except for the presence of claims 12-16 and 21 directed to an invention non-elected without traverse. Accordingly:

Claims **12-16** and **21** have been cancelled.

3. In the Specification:

Please insert the following sentence on page 1 of the specification after the Title--

--This is a National Stage application under 35 USC 371 of PCT/FR03/02641 filed September 4, 2003, which claims priority to French application 02/11040 filed September 6, 2002.--

4. The following is an examiner's statement of reasons for allowance:

The Declaration under 37 CFR 1.132 filed by Dr. Moulin filed February 3, 2011 provides evidence that the prior art to Higo would not disclose or suggest a process of producing a dual-phase steel, as required by the instant claims. Specifically, the disclosure in the prior art with respect to the yield strength/tensile strength ratio, as well as the relationships between tensile strength or yield strength and cold-rolling rate as

Art Unit: 1733

disclosed in the prior art clearly indicate that the prior art would not produce a dual-phase steel as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Wyszomierski whose telephone number is (571) 272-1252. The examiner can normally be reached on Monday thru Friday from 8:00 a.m. to 4:30 p.m. Eastern time.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Roy King, can be reached on (571) 272-1244. All patent application related correspondence transmitted by facsimile must be directed to the central facsimile number, (571)-273-8300.
